

THE MED SPA TREATMENT AND CONSENT FORM FOR BOTOX

I understand The Med Spa will provide the highest possible level of care and skill to improve/minimize my facial lines with a BOTOX Cosmetic injection. Botox is a registered trademark with Allergan, Inc. for Botulinum Toxin Type A.

The results of BOTOX Cosmetic are usually apparent within 7 days to 2 weeks. This treatment is not an exact science; no guarantees can be or have been made concerning expected results.

I understand the results are temporary and repeat treatments are needed to maintain the desired effect.

I should not have BOTOX Cosmetic if I am pregnant, nursing, and allergic to albumin or have an infection or muscle weakness at the injection site.

I have read and fully understand the above and consent to this BOTOX Cosmetic treatment today and for all subsequent treatments with The Med Spa.
